

SONOMA COUNTY WATER AGENCY FLOOD FORECAST

SONOMA COUNTY FLOOD INFORMATION IS AVAILABLE IN A RECORDED MESSAGE AT (707) 526-4768.

THIS MESSAGE IS REGULARLY UPDATED AS FLOOD CONDITIONS CHANGE.

DEFINITIONS:

Monitor Stage: Stage at which a general state of readiness must be maintained by concerned river interests in the event of further rises above flood stage. In some cases initial action must be taken by concerned interests, such as livestock and equipment removal from lowest areas. It may produce minor flooding of lowest-lying areas and secondary roads.

Flood Stage: An established river stage that, if exceeded, would cause flooding within some portion(s) of the reach that is a significant threat to life and property.

ALL THOSE AFFECTED BY RIVER CONDITIONS SHOULD REMAIN ON ALERT FOR RAPID CHANGES AND FOR POSSIBLE FORECAST REVISIONS.
